2 rate 15 th of may. 1200 kr

What are we going to do?

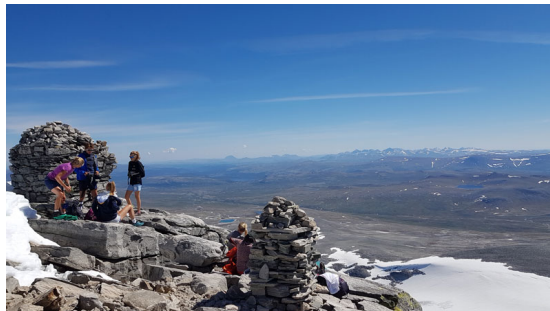

Musk Ox spotting and some of the other animals living there, hiking, seeing what a real norwegian mountain hut looks like, experiencing the Norwegian mountains.

The route will probably start from Kongsvoll Station to Reinheim, further on over the pass to Åmotdalen and back and around the 2286 meter Snøhetta. Maybe topped up with a tophike, if the weather allows it. Experiencing the tentlife, we are not going to sleep in the huts, because it costs about a half Audi for a large group.

We are still working on the transport, but it's going to be bus and train combined.
